Name: Mr B Boris Canterbury

Address:

34, BBC WAY
Sheffield
S1
United Kingdom

Nationality: British

Tel: 1234567

Mob:

Email: BBC1@mailinator.com

Website:

Personal Objectives:

To enter a training programme in multimedia, preferably in the new-media sector where my creative initiative, ideas and a genuine enthusiasm would allow me to progress.

I have a good working knowledge of many industry leading software applications such as Adobe Dreamweaver, Photoshop and Autodesk Maya. I work to the highest standards and have an eye for detail with skills in design and organisation. Completing my course projects has taught me to provide originality and quality whilst successfully meeting deadlines.

Personal Summary:

I am predominately looking for management training which offers me the opportunity to develop new skills while strengthening those I already possess.

My degree in ICT has enabled me to develop good organisational skills, an analytical/logical approach to tasks and the ability to work under pressure. I am able to work well both on my own initiative and as part of a team.

My main strengths are adaptability, dependability and the determination to get a job done as proven by my varied work experiences in retail, catering, hospitality work, teaching and patient care. I try to learn something new from every experience because I believe there is always room for self-improvement both personally and professionally.

Career

Job Title: ICT technician

01/09/2009 -

Employer: St Thomas OF Canterbury School

Job Description:

TBC

Job Title: CNC programming strategist

01/11/2008 - 01/08/2009

Employer: Advanced Manufacturing Research Centre

Job Description:

To assist and implement the creation of complex machining strategies for the use with acutely profiled nickel based super alloys. Daily tasks included the creation of three dimensional mechanical objects with the use of Computer Aided Design software, e.g. Pro Engineer, Solid Works, AutoCAD. These models would then be used to aid in the creation of machining strategies for the tool path of an automated turning center.

Skills

Problem solving, Network management, All aspects of Windows systems, Computer building/repairing/maintaining, Website testing

Interests & Hobbies

During my spare time I function as a PC/laptop repair engineer. This hobby enables me to gain a greater understanding of the construction of a computer and assists me in my other pass time of custom building PC systems. These hobbies complement my previous education and training as I aim to stay up to date and current with possible hardware/software's available at any given time.
